Session II: Key Outputs- Getting Climate Smart for Cyclone Disasters in Odisha: 1110-1245 hrs		
Chair: Shri Mihir Bhatt, AIDMI The Chair will introduce the concept of CSDRM in the context of cyclone disaster risk management. This session will briefly present (10 minutes each), the findings of the case studies carried out as a part of the project that have used the CSDRM approach to identify the barriers and opportunities for enabling action towards achieving convergence of Disaster Risk Reduction and Climate Change Adaptation across varying scales in the context of development, poverty and vulnerability reduction. In doing so it has specifically looked at the root causes leading to disasters, identified the opportunities that can maximise benefits of this integration.		
CSDRM approaches to Training at all levels of governance and communities for integrating CCA in DRM		Ms Sreeja Nair, NIDM
Opportunities for Local Institutions getting smart for disasters		Mr Vishal Pathak, AIDMI
Reverse engineering of a specific disaster event to understand the underlying causes of a natural hazard leading to disaster for enabling CSDRM planning in the long run		Ms Khyati Halani
Understanding the barriers and conflicts in priorities between DRR institutions and communities		Mr Vishal Pathak, AIDMI
Prioritizing CSDRM opportunities for long term cyclone preparedness through adaptation cost assessment for a specific study evaluating impact of Cyclone Phailin		Dr Anupa Ghosh, Global Change Research
Opportunities of CSDRM in a water and sanitation management projects in disaster prone areas		Dr Manisha Mukherjee, ICSD

Session III: Round table on Steps towards Climate Smart Planning at state and national level for long term cyclone preparedness: 1400-1600 hrs		
1400-1410	Setting the Context- Getting Climate Smart for cyclone management at national and state level	Dr Sumana Bhattacharya, ICSD
1410-1600 hrs	<p>This session will look at the opportunities for Convergence and Institutional Strengthening, improving Technical capacities for advance warning and future projections, planning for ensuring food, livelihoods and infrastructure security in the long term and elements of Climate Smart Financing of programmes and projects for management of disasters related to cyclones at national and state levels.</p> <p>The round table will have policy makers, private players, donors and NGOs representing communities. The discussion will be lead by Dr Akhilesh Gupta, Adviser, DST</p> <p>Representatives have been invited from: NIDM, NCRMP, IMD , MoES, DST, DoEF Odisha, MoEF, MoA, MoURD, ISET, It Power, CENES, DA, TERI, CSE, Plan India, SDC, MoF, UNDP, World Bank, IITD, SWAD amongst others</p> <p>Some of the key questions that will be explored are as follows:</p> <ul style="list-style-type: none"> • How Disaster risk mitigation is being integrated with climate change adaptation in policy at state and national level such as between NAPCC, cyclone guidelines, SAPCC's, state level disaster policies, CZMPs and different programmes? • How are different institutions ensuring integration and convergence of their programmes and projects that they are carrying out for cyclone risk reduction? What is the mechanism of ensuring convergence? • What are the approaches for ensuring climate resilient livelihood security in cyclone prone areas– some case studies or examples? • What are the approaches for climate resilient infrastructure – policies, programmes, plans, and capacity building initiatives? • What are the approaches for ensuring climate resilient food security to combat cyclone disasters? • The role of agriculture insurance and micro insurance towards disaster risk mitigation in a cyclone prone area <p>Conclusion and Final Remarks</p>
